Dr. Israt Hasain is not only a distinguished scholar but also a dedicated public servant. His contributions to education are immeasurable.

Prof. Dr. Muhammad Haseeb
Vice-Chancellor,
Tamgha University

Congratulations to Dr. Israt Hasain on receiving the Nishan-e-Imtiaz. His contributions to education are highly recognized.

An Interview with Dr. Israt Hasain

Director IBA – Focusing on Research

Introduction about herself

I have been a lifelong advocate of women's education. I believe that education is a powerful tool that empowers women to lead meaningful lives.

Relevance of education

Education is not just about acquiring knowledge; it is about developing critical thinking skills and resilience.

Challenges faced in education

The challenges we face today are significant, including poverty, lack of access to quality education, and gender disparities.

Role of technology

Technology has revolutionized the way we deliver education. It has made learning more accessible and less expensive.

Future of education

The future of education is bright. With the advent of new technologies, we have the opportunity to personalize learning for each student.

Conclusion

Education should be a right, not a privilege. It is crucial for the development of society. We must work together to ensure that every child has access to quality education.

Congratulations to Dr. Israt Hasain

On receiving Nishan-e-Imtiaz

Dr. Israt Hasain has been a driving force in the field of education. His contributions have been instrumental in shaping the future of education in Pakistan.

- University of Malaysia
- University of Southampton
- University of Maryland
- Kog University
- Sabanci University
- Multimedia University
- Institute of Bankers Pakistan

The strategies for the future are being drafted and discussed by a group of faculty members, and will be provided to the alumni, employers, and other stakeholders. They will determine as to what the future direction of IBA should be in our strategy. When we started in 2008, we have achieved most of our objectives towards building a world-class institution in information, we have added 21 projects and buildings, everything a first-rate institution requires. We have a state-of-the-art information technology support system and have recruited 50 PhDs to our faculty, many of them having obtained degrees from the best universities in the world. We have added new programmes which Karachi needed, for example undergraduates in Social Sciences, Liberal Arts, Accounting, Finance, Economics and Mathematics. In this, we have helped IBA tremendously. We have a clear vision for the future leadership of IBA to sustain and further improve the institution. We cannot remain complacent on our present laurels. That will be the loss of destruction for any institution.
