Workshop on
Finance for Non-Finance Executives

PROGRAM OVERVIEW

Understanding of accounting is imperative in today's highly competitive business world. It is considered as a business language and a basis for business decision making. Accounting is the vehicle that helps the management in planning and controlling the resources of the business. The more important decision, the more need for relevant information. There are financial implications for each decision a manager takes, and even in decision requiring qualitative aspects has ultimately financial impacts.

This workshop provides awareness of basic concepts of finance & accounting, including terminology and assumptions, valuation, financial statements, identify trends, and study competitors and thus become strategic users of accounting and financial data.

Benefits

- To remove fear of accounting and finance and to communicate effectively with Finance Executives.
- To acquire a solid grasp of how information is conveyed in basic financial statements and monthly reports reflecting the performances; how to analyze the information, how to use the information to make informed decisions.
- To enhance the decision making skill by using accounting, cost and management accounting concepts in day to day operating decisions and planning the business models.

Testimonials
