Internship Site: The Wright Guard

“My favorite part of the program was spending time with my roommates. Discussing political issues, ideologies and learning different foreign perspectives with my ‘mates’ was one of the best experiences I’ve ever had. The people I met held different views which taught me to think about issues from new perspectives. This has yielded not only tolerance towards other people’s opinions, but also enabled a critical thinking process important to analyze issues in this day and age.”
